| 注意事项                | IRF3 Antibody is for research use only and not for use in diagnostic or therapeutic procedures. IRF3 {ECO:0000303 PubMed:9803267, ECO:0000312 HGNC:HGNC:6118}                                                                                                                                                                                              |
| 细胞定位                | Cytoplasm. Nucleus Mitochondrion. Note=Shuttles between cytoplasmic and nuclear compartments, with export being the prevailing effect (PubMed:10805757). When activated, IRF3 interaction with CREBBP prevents its export to the cytoplasm (PubMed:10805757). Recruited to mitochondria via TOMM70:HSP90AA1 upon Sendai virus infection (PubMed:25609812). |
| Clonality           | Monoclonal                                                                                                                                                                                                                                                                                                                                                 |
