| 同种型        | IgG                                                                                                                                                                                                                                                                                                                                                                       |
| 背景介绍       | Predicted to enable nuclear import signal receptor activity and nuclear localization sequence binding activity. Involved in DNA replication-dependent chromatin assembly; DNA replication-independent chromatin assembly; and protein import into nucleus. Located in chromatin. Part of protein-containing complex. [provided by Alliance of Genome Resources, Apr 2022] |
