| 注意事项                | SNAP29 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.                                                                                                                                                                                                                                                                                                                                     |
| 细胞定位                | Cytoplasm. Golgi apparatus membrane {ECO:0000250 UniProtKB:Q9Z2P6}; Peripheral membrane protein. Cytoplasmic vesicle, autophagosome membrane; Peripheral membrane protein. Cell projection, cilium membrane; Peripheral membrane protein. Note=Appears to be mostly membrane-bound, probably via interaction with syntaxins, but a significant portion is cytoplasmic Localizes to the ciliary pocket from where the cilium protrudes |
| Clonality           | Monoclonal                                                                                                                                                                                                                                                                                                                                                                                                                            |
