

TIFA (Phospho Thr9) (3G15) Rabbit Monoclonal Antibody

Catalog# UZ-MA04522

Product information

产品货号	UZ-MA04522
别名	T2BP; T6BP; TIFAA
产品名称	TIFA (Phospho Thr9) (3G15) Rabbit Monoclonal Antibody
类别	抗体产品
推荐应用	WB,IP
反应种属	Human
存储缓冲液	Supplied in 50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40%Glycerol, 0.01% New type preservative N and 0.05% BSA.
免疫原	A synthetic phosphopeptide corresponding to residues surrounding Thr9 of human TIFA
稀释度	WB 1:1000, IP 1:20-1:50
参考分子量	21kDa
预测分子量	21kDa
运输及保存条件	-20°C/1 year
宿主	Rabbit
同种型	IgG
背景介绍	This gene encodes an adapter protein involved in adaptive and innate immunity. The protein includes a forkhead-associated (FHA) domain that specifically binds to phosphorylated serine and threonine residues. In response to bacterial infection, the encoded host cell protein undergoes an intermolecular interaction between the FHA domain and a phosphorylated threonine that leads to protein oligomerization and stimulation of the NF-kappa B and other downstream signaling pathways. This protein exhibits reduced expression in hepatocellular carcinoma and may suppress hepatocellular carcinoma progression. This protein may also play a role in the DNA damage response. [provided by RefSeq, Jun 2018]
纯化	Affinity Purification
Uniprot ID	Q96CG3
Clonality	Monoclonal
