| 产品名称       | alpha 1 Fetoprotein (5M3) Rabbit Monoclonal Antibody                                                         |
| 类别         | 抗体产品                                                                                                         |
| 推荐应用       | WB,IF-ICC,FCM                                                                                                |
| 反应种属       | Mouse,Rat                                                                                                    |
| 存储缓冲液      | Supplied in 50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40%Glycerol, 0.01% New type preservative N and 0.05% BSA. |
| 免疫原        | Recombinant protein of mouse alpha 1 Fetoprotein                                                             |
| 稀释度        | WB 1:1000, IF-ICC 1:100, FCM 1:200-1:500                                                                     |
| 参考分子量      | 70kDa                                                                                                        |
| 预测分子量      | 67kDa                                                                                                        |
| 运输及保存条件    | -20°C/1 year                                                                                                 |
| 宿主         | Rabbit                                                                                                       |
| 同种型        | IgG                                                                                                          |
| 背景介绍       | Binds estrogens, fatty acids and metals.                                                                     |
| 纯化         | Affinity Purification                                                                                        |
| Uniprot ID | P02772                                                                                                       |
| Clonality  | Monoclonal                                                                                                   |
