| 背景介绍                | This gene belongs to the amiloride-sensitive Na <sup>+</sup> channel and degenerin (NaC/DEG) family, members of which have been identified in many animal species ranging from the nematode to human. The amiloride-sensitive Na(+) channel encoded by this gene is primarily expressed in the small intestine, however, its exact function is not known. [provided by RefSeq, Jul 2008], |
| 细胞定位                | Cell membrane ; Multi-pass membrane protein .                                                                                                                                                                                                                                                                                                                                             |
| 纯化                  | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.                                                                                                                                                                                                                                                                     |
