

## Atg16L2 Rabbit Polyclonal Antibody

Catalog# UZ-PA01356

### Product information

|                     |                                                                                                                             |
|---------------------|-----------------------------------------------------------------------------------------------------------------------------|
| 产品货号                | UZ-PA01356                                                                                                                  |
| 别名                  | ATG16L2; WDR80; Autophagy-related protein 16-2; APG16-like 2; WD repeat-containing protein 80                               |
| 产品名称                | Atg16L2 Rabbit Polyclonal Antibody                                                                                          |
| 类别                  | 抗体产品                                                                                                                        |
| 基因名称                | ATG16L2                                                                                                                     |
| 推荐应用                | WB,ELISA                                                                                                                    |
| 反应种属                | Human,Rat,Mouse                                                                                                             |
| 存储缓冲液               | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% New type preservative N .                                         |
| Human Gene ID       | 89849                                                                                                                       |
| Human Swissprot No. | Q8NAA4                                                                                                                      |
| 免疫原                 | The antiserum was produced against synthesized peptide derived from human ATG16 L2. AA range:241-290                        |
| 稀释度                 | WB 1:500-1:2000, ELISA 1:20000.Not yet tested in other applications.                                                        |
| 预测分子量               | 70kDa                                                                                                                       |
| 运输及保存条件             | -20°C/1 year                                                                                                                |
| 宿主                  | Rabbit                                                                                                                      |
| 同种型                 | Rabbit,IgG                                                                                                                  |
| 背景介绍                | function:May play a role in autophagy.,similarity:Belongs to the WD repeat ATG16 family.,similarity:Contains 7 WD repeats., |
| 细胞定位                | Cytoplasm, cytosol . Localizes also to discrete punctae along the ciliary axoneme . .                                       |
| 纯化                  | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.       |
| Clonality           | Polyclonal                                                                                                                  |
