

## CIRBP (7X9) Rabbit Monoclonal Antibody

Catalog# HZ-YMA00526

### Product information

|                     |                                                                                                                                                                                                                                                                                              |

| 产品名称                | CIRBP (7X9) Rabbit Monoclonal Antibody                                                                                                                                                                                                                                                       |
| 类别                  | 抗体产品                                                                                                                                                                                                                                                                                         |
| 基因名称                | CIRBP                                                                                                                                                                                                                                                                                        |
| 推荐应用                | WB,IF-P,IF-F,IF-ICC,IP,ELISA                                                                                                                                                                                                                                                                 |
| 反应种属                | Human,Mouse,Rat                                                                                                                                                                                                                                                                              |
| 存储缓冲液               | PBS, 50% glycerol, 0.05% Proclin 300, 0.05%BSA                                                                                                                                                                                                                                               |
| Human Gene ID       | 1153                                                                                                                                                                                                                                                                                         |
| Human Swissprot No. | Q14011                                                                                                                                                                                                                                                                                       |
| 稀释度                 | WB 1:500-1:2000, IF-P/IF-F/IF-ICC 1:200-1:1000, ELISA 1:5000-1:20000, IP 1:50-1:200                                                                                                                                                                                                          |
| 参考分子量               | 19kDa                                                                                                                                                                                                                                                                                        |
| 预测分子量               | 19kDa                                                                                                                                                                                                                                                                                        |
| 运输及保存条件             | Biological ice bag transportation. Store at -20°C for at least 12 months(Do not lower than -25°C). Avoid freeze/thaw cycles                                                                                                                                                                  |
| 宿主                  | Rabbit                                                                                                                                                                                                                                                                                       |
| 同种型                 | IgG,Kappa                                                                                                                                                                                                                                                                                    |
| 背景介绍                | function:Seems to play an essential role in cold-induced suppression of cell proliferation.,induction:By cold stress and in response to DNA damage induced by UV irradiation or UV mimetic agents.,similarity:Contains 1 RRM (RNA recognition motif) domain.,tissue specificity:Ubiquitous., |
| 细胞定位                | Nuclear                                                                                                                                                                                                                                                                                      |
| 纯化                  | Protein A                                                                                                                                                                                                                                                                                    |
| Clonality           | Monoclonal                                                                                                                                                                                                                                                                                   |
