

## S100P (14R9) Rabbit Monoclonal Antibody

Catalog# HZ-YMA01525

### Product information

|           |                                                                                                                                                                                                                                                                                       |

| 产品货号      | HZ-YMA01525                                                                                                                                                                                                                                                                           |
| 别名        | S100P;S100E;Protein S100-P;Protein S100-E;S100 calcium-binding protein P                                                                                                                                                                                                              |
| 产品名称      | S100P (14R9) Rabbit Monoclonal Antibody                                                                                                                                                                                                                                               |
| 类别        | 抗体产品                                                                                                                                                                                                                                                                                  |
| 基因名称      | S100P                                                                                                                                                                                                                                                                                 |
| 推荐应用      | WB,IHC-P,IF-P,IF-F,IF-ICC,IP,ELISA                                                                                                                                                                                                                                                    |
| 反应种属      | Human                                                                                                                                                                                                                                                                                 |
| 存储缓冲液     | PBS, 50% glycerol, 0.05% Proclin 300, 0.05%BSA                                                                                                                                                                                                                                        |
| 稀释度       | IHC-P 1:200-1:1000, WB 1:200-1:1000, IF-P/IF-F/IF-ICC 1:200-1:1000, ELISA 1:5000-1:20000, IP 1:50-1:200                                                                                                                                                                               |
| 参考分子量     | 10kDa                                                                                                                                                                                                                                                                                 |
| 预测分子量     | 10kDa                                                                                                                                                                                                                                                                                 |
| 运输及保存条件   | Biological ice bag transportation. Store at -20°C for at least 12 months(Do not l<br>ower than -25°C). Avoid freeze/thaw cycles                                                                                                                                                       |
| 宿主        | Rabbit                                                                                                                                                                                                                                                                                |
| 同种型       | IgG,Kappa                                                                                                                                                                                                                                                                             |
| 细胞定位      | Detected in all of the tissues except brain, testis and small intestine, expressi<br>on level is higher in placenta, heart, lung, skeletal muscle, spleen and leukocyte<br>. Up-regulated in various pancreatic ductal adenocarcinomas and pancreatic intra<br>epithelial neoplasias. |
| Clonality | Monoclonal                                                                                                                                                                                                                                                                            |
